

Waxing Fees

For your convenience, we offer waxing and have both hard and soft wax. This is a great way to remain hair free in between your laser hair removal appointments. It is important that you do not shave for 2 weeks before your wax appointment. Please inform the aesthetitian if you are using a retinoid product such as Retin-A or Accutane. Waxing cannot be performed on patients who are using Accutane. Please be sure to stop any retinoid topical product at least 5 days prior to waxing if it is being applied on the area to be waxed.
